

## History

Who was Victoria; and why and how was Britain - and the entire world - completely changed by the events of her 64 years on the throne?

## Experience

Fancy changing school to a Victorian establishment? Children will experience for themselves life as a child in Victorian Britain during an educational visit to Beamish (please note that the visit itself will take place in the second half-term).

## Science

What *is* sound? How does it travel and what is the relationship between sound, our ears and our brain? We might know that things become quieter the further we are away from them, but why is that?

## RE & PHRSE

### RE

What do Hindus believe God is like and what does it mean to be a Hindu in Britain today?

These are the big questions you will explore.

### PHRSE

As it is the start of a new year with new friends and new teachers, we will get to know each other and agree a learning charter and a dream school.

## PE:

It's like basketball but on benches! Children will practice passing, shooting and teamwork.

## Art & DT

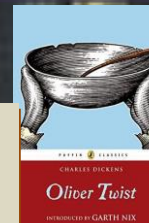

Popular still to this day, children will create artwork based on the masterpieces of William Morris.

## Computing

Calling budding composers and DJs, make your own piano using bananas (and Makey Makey, of course)!

## Music

Listening to music is a social activity and sharing what we like to listen to helps bring us closer together.

## English

It was the best of times, it was the worst of times: children will be immersed in the world of Charles Dickens and follow the trials and tribulations of Oliver Twist. Who was he and will he escape the murderous Bill Sykes?

## Maths

Place value is the cornerstone of maths, and this half-term children will learn, cement and apply their knowledge of this key concept.
