

# Queen Mary 1st

Mary was an only child of Henry VIII by his first wife Catherine of Aragon.

300 disagreeing religious people were burned at the stake that's why people called her bloody Mary.

She died on the 17th November 1558 and was then buried on the 14th December 1558.

Queen Mary ruled England for five years. She was the first ever queen and was baptized as a Catholic shortly after her birth.
